

How to measure your ring size

How to measure the inside diameter of your ring:

- *Select one of your rings that properly fits the intended finger.
- *Measure the inside diameter of the ring.
- *Match the measurements from the chart. If it falls between two sizes, we advise you to order the larger size.

How to measure your finger:

- *Wrap a narrow strip of paper or piece of string comfortably around your intended finger.
- *Mark the end (where it meets) and measure the distance. This is the circumference.
- *Match the measurements from the chart. If it falls between two sizes, we advise you to order the larger size.

Buying a ring as a gift

The best and easiest way to find out someone else's ring size is to borrow one of their ring, making sure it is from the correct finger, and measure the inside diameter.

- *Match the measurements from the chart. If it falls between two sizes, we advise you to order the larger size.

Because we have different size charts from country to country, we decide to make three different charts to find the ring size you are most familiar with. We have accordingly make the charts with the diameter and the circumference.

If you need any advice for your ring size please contact us.
